SUSTAINABLE DEVELOPMENT GOALS

How Technology can help to reach ODD goals

The 2030 Agenda, adopted at the United Nations Sustainable Development Summit in September 2015, positioned Science, Technology and Innovation (STI) as key means of implementation of the SDGs, and launched the UN Technology Facilitation Mechanism (TFM).

How Technology can help to reach ODD goals ?

- Technology is changing how we live, but it needs to...
- To change how we think
- How we work
- How we collaborate
- How we implement

A vertical strip on the left side of the slide shows a nighttime view of a city skyline, likely New York City, with numerous illuminated skyscrapers and buildings.

To ensure

- Social equality
- Economic equality
- Human equality

Thank you
